

**UNIVERSITY OF SINDH, JAMSHORO (PAKISTAN)**

Department of Comparative Religion and Islamic Culture

Semester: First

Class: BBA-I (Morning)

Course: IS- 302

Date: 09/08/2021

Final Test-2021 **REGULAR/IMPROVER**

Faculty Member: Dr. Mukhtiar A. Kandhro

Subject: Islamic Studies (Compulsory)

Max Marks: 60

Time Allowed: 2 Hours

---

**NOTE:** Regular Students attempt any **THREE** Questions. Improver/Failure Students attempt **FIVE** Questions. All Questions carry Equal Marks.

---

✓ Q.1: Explain the concept of Oneness of God (Tauhid) in Islam in detail.

Q.2: Explain the meaning, history, significance, and impact of Fasting on life.

✓ Q.3: Explain the meaning and significance of Prophethood (Risalat) and salient features of the Prophets.

✓ Q.4: Explain the meaning, philosophy of Jihad and differentiate between Jihad and Terrorism.

Q.5: Explain the concept of Lawful Earning (Kasb-e-Halal) and its significance in Islam.

**THE END**

# Business Mathematics

Date: 08 May, 2017

Max. Marks: 60

- Instructions:**
- Attempt any **Four** questions including Q # 1, which is compulsory to attempt. Each question carries 15 marks.
  - Switch off your mobile phones and put it into your pocket.
  - Don't use any extra page. You can use the last two pages of your answer copy for rough work.
  - You are not allowed to write anything on the question paper.

Q # 1. Attempt any five of the following:

- Calculate 0.6% of Rs. 120,000.
- After deducting the tax of 15%, contractor received the amount of Rs. 340,000 on his invoice. Calculate the actual amount of his invoice.
- Find the equation of the straight line which passes through  $(-1, -3)$  and  $(-7, 8)$  and draw the line.
- If  $f(p) = 10p^2 + 15p - 100$ ; then determine  $f'(p)$ .
- Calculate interest on the investment of Rs. 145,000 on 11.5% simple interest for 3 years.
- A manager gets 5 times as much salary as his assistant gets. What is the ratio of salary of his assistant to the manager?

Q # 2. An organization invests \$500,000 in an investment which is expected to yield interest at a rate of 9% per year compounded semiannually. If the money is invested for 10 years, to what amount should it grow? How much interest will be earned during the period?

Q # 3. (a) Find  $D_x f(t)$  for  $f(t) = 2\sqrt{t} + \frac{5}{7}t^2 - \frac{3}{14}$ .

(b) The total revenue from the sale of  $q$  items priced at Rs.  $P$  per unit  $R(q) = pq$ , where  $p = 60 - 0.04q$ . Find the marginal revenue function and determine the revenue from the selling of 200<sup>th</sup> item.

Q # 4. (a) Find the equation of straight line, which passes through  $(2, -3)$  and its slope is  $-2$ .

(b) Office equipment was purchased for \$20,000 and is assumed to have a scrap value of \$2000 after 10 years. If its value is depreciated linearly (for tax purposes) from \$20,000 to \$2,000.

- Find the slope of the line joining the points associated with Value and time and interpret the slope.
- Find the linear equation that relates value ( $V$ ) in dollars to time ( $t$ ) in years, and determine the value of the equipment after 8 years?

Q # 5. (a) Find the effective annual yield of interest for  $i = 9.5\%$  compounded monthly.

(b) Per unit price of an electricity unit has been increased from Rs. 8 to Rs. 11.30. Determine percentage increase in per unit price.

Q # 6. (a) By selling a car for Rs. 340500 an owner suffered a loss of 6%. At what price he had to sell the car to get a profit of 5%.

(b) Three men took part in a business. They put in Rs. 2000, Rs. 4000 and Rs. 1500 as capital. The profit made was divided among them in the same proportion as the amounts put in. If the profit was Rs. 300, what did each man get?

Part-B (PBA) (afternoon) - First Semester, Academic Session-2015  
Subject: Pakistan Studies (Compulsory) Course No. 303  
(Regular)

Time allowed: 2 Hours

Max. Marks: 60

Attempt any **THREE** Questions. All Questions carry equal marks.

1. What is the role of All India Movement in the revival of the image of Muslims after the war of independence of 1857?
2. Formation of All India Muslim League and its role of creation of Pakistan?
3. What is Khilafat movement highlight the major events of the movement and critically evaluate the success or failure of the movement?
4. It is said that "Lucknow Pact" was the only event that united both Congress and All India Muslim League at one platform. Explain briefly.
5. The Lahore Resolution was turning point in the history of Pakistan movement define the main principles of the Resolution?
6. Describe in detail the Geographical Importance of Pakistan.

Good Luck

Note: Attempt all questions.

Q.1. Read the passage carefully and answer the following questions:

There are indeed various ways to show kindheartedness. You can do good deeds for others with just what you have, and the terrific thing is that there are a lot of advantages for the people who do these deeds. When people assist others, they experience a greater sense of well-being which is critically important as it helps to lessen common troubles like stress and misery. These people will be able to cope better with their own worries and problems. Acts of kindness will give rise to more acts of kindness. When more people show kindness to each other, society will go through changes. As each good turn leads to the next, the effect will increase, thus producing a caring society where people will be more concerned for others. Consequently, this will lead to more constructive effects like a lower crime rate and happier citizens.

A. Write meaning and use any TEN of the above underlined words in your sentences.

B. What are the benefits of being kind?

C. Without using examples from the passage, suggest one of the best ways to be kind.

Q.2. Write dialogues on any ONE of the following situations.

A) Two friends discussing about importance of learning English.

B) Two students discussing about the impact of lockdown on Education.

Q.3. Fill in the blanks with appropriate words according to the units of 'English for Undergraduates'.

1. One of the misconceptions about study is the more you study, the \_\_\_\_\_ you learn.

a) less      b) more      c) better      d) most.

2. The \_\_\_\_\_ were the ones for whom capping had not worked properly and their minds had refused to accept it.

a) Ozymandias      b) Tripods      c) vagrants      d) Henry

3. The majority of student's optimum is \_\_\_\_\_ hours a day.

a) six      b) five      c) eight      d) three

4. The Tripods had been ruled over the earth for more than \_\_\_\_\_ years.

a) fifty      b) seventy      c) thousand      d) hundred.

5. \_\_\_\_\_ was a big, a red-haired bearded man.

a) Vagrant      b) Tripod      c) Ozymandias      d) Jean Paul

Q.4.A) Identify the direct and indirect object in the sentence below.

1. We showed them the photos.      2. Tom is making Jerry a cake.

3. Aina gave Elina some flowers.      4. Jerry told us a funny story.

5. Elina gave some flowers to Aina.

B) Identify which underlined verbs express states or actions in the following sentences.

1. I see David quite often.      2. I see your problem.      3. She knows the answer.

4. Children are playing cricket.      5. They play in the garden.

Good Luck ☺

**Q #3 Do as Directed. Attempt any 10 of the following.**

**(10)**

1. He is quite good ..... Remembering dates
2. a) in                      b) on                      c) with                      d) a
3. How disgusting! (Identify the type of the sentence)
4. I wasn't a bad doctor. (Add a question tag)
5. The school had no regular calendar. (Rewrite as Affirmative)
6. He brought the coconuts down. (Change the voice)
7. Larna had been doing penance for ages in a cave. (Identify the tense)
8. Many of them are struggling in many places. (Use Past perfect continuous)
9. The science of ship-building was known to ancient Indians. (Change the voice)
10. It was dinner time when he finished. (Rewrite as simple sentence)
11. We congratulated him ..... his success.  
a) With                      b) at                      c) on                      d) for
12. I wasn't quite sure of myself. (Rewrite as affirmative)
13. "Did you like the story, Ali?" Asifa asked. (Rewrite into Indirect speech)
14. The bird was spotted in pairs almost every day. (Change the voice)
15. How can they be seen? ( Rewrite as Assertive)
16. It is achievable. (Rewrite as negative)
17. They have never seen a sunrise. (Change the voice)
18. "They have promised that the funds we have given to initiate the process will be returned to us."  
"Mr. Ali says. (Rewrite as Indirect speech)
19. Dora had never received such a gift. (Rewrite in Present Perfect tense)
20. I don't think that we can count ..... Him.  
a) On                      b) in                      c) at                      d) with
21. I don't believe ..... Ghosts. Do you?  
a) In                      b) at                      c) of                      d) out
22. Contrary ..... our expectations the central bank increased interest rates.  
a) With                      b) to                      c) at                      d) none of these

**Q #4 Give short answers of any 3 of the following.**

**(15)**

1. What is the difference between fact and opinion? Give examples.
2. Define irony and its type. Give suitable examples.
3. Explain Present continuous tense with suitable examples.
4. Differentiate between Present simple and future simple tenses in table form. Give examples

**Q #5 Write a detailed note on any one personality as the pride of Pakistan.**

**(10)**

**GOODLUCK!**

INSTITUTE OF BUSINESS ADMINISTRATION, UNIVERSITY OF SINDH, JAMSHORO  
First Semester Examination of BBA (Hons) Part I - Evening Program, 2017  
PAKISTAN STUDIES

Date: May-18-2017

Time Allowed: Two Hours

Max. Marks: 80

Note: Attempt any **Four** questions. Each carries equal marks

QNo: 01. Why did Khilafat movement begin? Elaborate some causes of its failure.

QNo: 02. Examine the nature of Congress rule in provinces under Indian Act 1935. What was its impact on Muslim Politics?

QNo: 03. Discuss the Lahore Resolution (1940) and explain its historical significance?

QNo: 04. Evaluate the policies of the Cripps Mission. To what extent were those policies favorable for the Muslims of the sub-continent?

QNo: 05. Describe reasons which caused establishment of Muslim League in 1906.

QNo: 06. "The aim for partitioning Bengal in 1905 was most important than those that caused its reversal in 1911". Do you agree? Explain your answer.

**THE END**

Business Mathematics

Date: 05 May, 2014

Max. Marks: 70

Note: Attempt any Four questions.

Q # 1. Vernal Equinox wishes to borrow \$10,000 for three years. A group of individuals agrees to lend him this amount if he contracts to pay them \$16,000 at the end of the three years. What is the implicit compound annual interest rate implied by this contract (to the nearest whole percent)?

Q # 2. (a) What principal will produce \$ 6913.125 in 6.5 years at 8.25% single interest?

(b) A buyer purchased a gift for \$550. The profit margin of the seller was 10%. Before reaching the home buyer changed his idea and exchanged the same gift with different colour and paid an extra amount of \$50 for the exchange. Find the seller's profit.

Q # 3. (a) Certain company announced a 12% discount on its pair of shoes. If the marked price of a pair of shoes is \$60 then what would be its sale price now?

(b) A student got 42 marks out of 60 in Mathematics, and 62 marks out of 80 in Economics. In which subject the performance of the student is better?

Q # 4. (a) The employees in a certain factory are divided into three wage classification. Group A is paid at the rate of Rs. 100 per day, a second group in which there are twice as many employees as in the first group, is paid at the rate of Rs. 150 per day, and a third group, in which there are half as many employees as in the other two groups is paid Rs. 200 per day. If the total daily payroll is Rs. 10,000, how many employees are there in each group?

(b) The management of a company manufacturing surfboards has fixed costs (zero output) of \$200 per day and total costs \$1400 per day at a daily output of twenty boards.

(i) Assuming the total cost per day (C) is linearly related to the total output per day (X), write an equation relating output to cost.

(ii) What are the total costs for an output of twelve boards per day?

Q # 5. (a) Derive the quadratic formula from the standard quadratic equation.

(b) Mr. Zia was bought a number of shares for Rs. 5250. He reserved 50 of them and sold the rest for Rs. 5250. If his profit was 10% on the cost price. How many shares did Mr. Zia buy?

Q # 6. (a) Find the derivative of the following function:

$$f(x) = \sqrt{x^2 - 10}$$

(b) A company's sales are known to be related to advertising expenditures by the equation  $P(x) = 150000 + 5000x - 50x^2$ , where x denotes the monthly advertising expenditures in thousands of dollars. Find the company's instantaneous rate of change in sales, if monthly advertising expenditures are \$3000.

**Institute Of Business Administration, University Of Sindh, Jamshoro**

**First Semester Examination of BBA (Hons) P-I (Evening Program), 2018**

**Business Mathematics (Course No: 306)**

Date: 02 May, 2018

Time: 02 Hours

Max. Marks: 60

- Instructions:** (i) Attempt any Four questions. Each question carries 15 marks.  
(ii) Switch off your mobile phones and put it into your pocket.  
(iii) Don't use any extra page. Use the last two pages of your answer copy for rough work.  
(iv) You are not allowed to write anything on the question paper.

- Q # 1 (a) Mr. Shan is investing his amount of Rs. 0.12 million for two investments. If he is getting 6% profit on 1<sup>st</sup> investment; 5% on 2<sup>nd</sup> investment and his total profit amount is Rs. 6,450; determine the amount of each investment. (10 Marks)
- (b) The sum of three consecutive even integers is 162. Find the integers. (05 Marks)
- Q # 2 (a) It costs an electric fan manufacturing company Rs. 1.2 million as fixed cost to manufacture electric fans. Variable costs are Rs. 700 per fan. If the fan is sold to whole sellers for Rs. 1500 each, how many fans must be manufactured and sold for the company break even? (10 Marks)
- (b) Solve  $2t^2 - 7t - 30 = 0$  by factorization method. (05 Marks)
- Q # 3. Ms. Rabia bought a number of shares for Rs. 1,650/- He reserved 30 of them and sold the remaining for Rs. 1,680/- making a profit of Rs. 6 per share on the cost price. How many shares did she buy? Also determine the cost price of each share. (15 Marks)
- Q # 4. A sum of Rs. 155,000 earns interest at rate of 10% per year compounded annually. How long will it take for the investment to grow to double? (15 Marks)
- Q # 5. (a) Find the equation of the straight line which passes through (-2, 6) and (4,5). Also draw the line. (05 Marks)
- (b) Office equipment was purchased for \$22,000 and is assumed to have a scrap value of \$2,200 after 11 years. If its value is depreciated linearly (for tax purposes) from \$22,000 to \$2,200. (10 Marks)
- (i) Find the slope of the line joining the points associated with Value and time and interpret the slope.
- (ii) Find the linear equation that relates value (V) in dollars to time (t) in years.
- (iii) What would be the value of the equipment after 7 years?
- (iv) Graph the equation for  $0 \leq t \leq 11$
- Q # 6 (a) If  $f(x) = \sqrt{x^3 - 10}$ , determine  $D_x f(x)$  (05 Marks)
- (b) A company's sales are known to be related to advertising expenditures by the equation  $R(x) = 150000 + 6000x - 50x^2$ , where x denotes the monthly advertising expenditures in thousands of rupees. Find the company's instantaneous rate of change in sales, if monthly advertising expenditures are Rs. 15000. (10 Marks)

***"Micro Economics"***

**Date: 28-July-2021**

**Time Allowed: 2**

**Max. Marks: 60**

**Note: Attempt any Four Questions. Each question carries equal marks.**

- Q-1 How the millions of choices made in the economy by household, firm and Government are coordinated. Support your answer with figure.
- Q-2 How does the Production Possibility Frontier (PPF) illustrate scarcity, opportunity cost and efficiency?
- Q-3 Suppose that Hawaii produces only two goods, food and suntan oil. Its production possibility are:

| Food (Kg per month) | Suntan oil (Litres per months) |
|---------------------|--------------------------------|
| 300                 | 0                              |
| 200                 | 50                             |
| 100                 | 100                            |
| 0                   | 150                            |

A) Draw a graph of Hawaii production possibility frontier.

- Q-4 What are the main type of business organization and discuss on advantage and disadvantage of each.
- Q-5 If the consumers are only willing to buy a certain fixed quantity, what does the supply curve tell us about the price at which firm will supply that quantity?
- Q-6 The demand and supply schedule for chocolate bar are as follows.

| Price (percent per bar) | Quantity demanded | Quantity supplied |
|-------------------------|-------------------|-------------------|
| 10                      | 200               | 0                 |
| 20                      | 180               | 30                |
| 30                      | 160               | 60                |
| 40                      | 140               | 90                |
| 50                      | 120               | 120               |
| 60                      | 100               | 140               |
| 70                      | 80                | 160               |
| 80                      | 60                | 180               |
| 90                      | 40                | 200               |

- a) What is the equilibrium price of a chocolate bar?
- b) What is the equilibrium quantity of chocolate bar?
- c) As the chocolate bar factories destroy by fire are rebuilt and gradually resume production. What will happened?
- a. The price of chocolate bar? b) The demand and supply curve for chocolate bar?

Q # 4. A sum of Rs. 155,000 earns interest at rate of 10% per year compounded annually. How long will it take for the investment to grow to double? (15 Marks)

Q # 5. (a) Find the equation of the straight line which passes through (-2, 6) and (4,5). Also draw the line. (05 Marks)

(b) Office equipment was purchased for \$22,000 and is assumed to have a scrap value of \$2,200 after 11 years. If its value is depreciated linearly (for tax purposes) from \$22,000 to \$2,200. (10 Marks)

(i) Find the slope of the line joining the points associated with Value and time and interpret the slope.

(ii) Find the linear equation that relates value (V) in dollars to time (t) in years.

(iii) What would be the value of the equipment after 7 years?

(iv) Graph the equation for  $0 \leq t \leq 11$

Q # 6 (a) If  $f(x) = \sqrt{x^3 - 10}$ , determine  $D_x f(x)$  (05 Marks)

(b) A company's sales are known to be related to advertising expenditures by the equation  $R(x) = 150000 + 6000x - 50x^2$ , where  $x$  denotes the monthly advertising expenditures in thousands of rupees. Find the company's instantaneous rate of change in sales, if monthly advertising expenditures are Rs. 15000. (10 Marks)

**INSTITUTE OF BUSINESS ADMINISTRATION, UNIVERSITY OF SINDH, JAMSHORO**  
**First Semester Examination of BBA (Hons) Part I - Evening Program, 2017**  
**PAKISTAN STUDIES**

Date: May-18-2017

Time Allowed: Two Hours

Max. Marks: 80

Note: Attempt any **Four** questions. Each carries equal marks.

QNo: 01. Why did Khilafat movement begin? Elaborate some causes of its failure.

QNo: 02. Examine the nature of Congress rule in provinces under Indian Act 1935. What was its impact on Muslim Politics?

QNo: 03. Discuss the Lahore Resolution (1940) and explain its historical significance?

QNo: 04. Evaluate the policies of the Cripps Mission. To what extent were those policies favorable for the Muslims of the sub-continent?

QNo: 05. Describe reasons which caused establishment of Muslim League in 1906.

QNo: 06. "The aim for partitioning Bengal in 1905 was most important than those that caused its reversal in 1911". Do you agree? Explain your answer.

"Freshman English I"

Regular Feature (100 marks)  
Max. Marks: 75  
Section A & B

Dated: 07-05-15  
Time Allowed: 2 Hrs

- > Attempt All the questions :-  
✓ Read & understand the following story & give the answer of all the questions according to your understanding level :-

The most feared and hated beast in the world is its largest reptile, the crocodile, which kills more human beings than do lions, tigers, leopards and snakes put together. Each year Africa alone loses an estimated 1000 victims, mostly women and children.

The crocodile's domain includes central and southern Africa, the warmer parts of Asia, tropical Pacific islands and northern Australia. He also inhabits the warmer parts of the Americas but is there far outnumbered by his cousins, the alligators. The difference between crocodiles and alligators are many and technical. The most obvious one is that, with jaws closed, the alligator's teeth are invisible, while in the crocodile the long fourth tooth on each side of the lower jaw fits into a deep notch on the outside of the upper jaw. This gives the crocodile a deceptive "grin".

Except for a few tiny, chameleon-like lizards, the crocodile is the only reptile with a true voice. He can emit a loud, eerie roar, like distant thunder or the roll of a big drum. His dental arrangement is marvelous: if he loses a tooth, another one quickly grows in its place, and this goes on all his life. He will eat almost anything. His digestive juices are so strong in hydrochloric acid that they have dissolved, in a few months, iron spearheads and 6-inch steel hooks that have been swallowed. Even so, he does not seem to need much food. In captivity, crocodiles thrive on less than a pound a month.

The crocodile is a deadly weapon: terrible jaws and terrible tail. A murderous sideways blow with the tail can knock down and break the legs of the largest deer. But the crocodile's classic attack is to drift under the unsuspecting animal, and then, without a sound, to submerge entirely and wait until it can lunge to seize his prey in vice-like jaws.

At least a year ago, a tribal chief told an Englishman that crocodiles had, in the month of June, five women as they drew water. The Englishman suggested that the women should use large tin cans to draw water. The chief said, "Tins like that are hard to find and very valuable."

Answer these questions into your own words:

- Q. Why is the writer justified in describing the crocodile as the most feared and hated beast in the world? Give your reasons. [05]  
Q. Explain why the victims are mostly women and children. [05]  
Q. What are the crocodile's main weapons of attack? Explain how it attacks with these. [05]

**Q #3 Do as Directed. Attempt any 10 of the following.**

(10)

1. He is quite good ..... Remembering dates
2. a) in                      b) on                      c) with                      d) a
3. How disgusting! (Identify the type of the sentence)
4. I wasn't a bad doctor. (Add a question tag)
5. The school had no regular calendar. (Rewrite as Affirmative)
6. He brought the coconuts down. (Change the voice)
7. Lama had been doing penance for ages in a cave. (Identify the tense)
8. Many of them are struggling in many places. (Use Past perfect continuous)
9. The science of ship-building was known to ancient Indians. (Change the voice)
10. It was dinner time when he finished. (Rewrite as simple sentence)
11. We congratulated him ..... his success.  
a) With                      b) at                      c) on                      d) for
12. I wasn't quite sure of myself. (Rewrite as affirmative)
13. "Did you like the story, Ali?" Asifa asked. (Rewrite into Indirect speech)
14. The bird was spotted in pairs almost every day. (Change the voice)
15. How can they be seen? (Rewrite as Assertive)
16. It is achievable. (Rewrite as negative)
17. They have never seen a sunrise. (Change the voice)
18. "They have promised that the funds we have given to initiate the process will be returned to us."  
Mr. Ali says. (Rewrite as Indirect speech)
19. Dora had never received such a gift. (Rewrite in Present Perfect tense)
20. I don't think that we can count ..... Him.  
a) On                      b) in                      c) at                      d) with
21. I don't believe ..... Ghosts. Do you?  
a) In                      b) at                      c) of                      d) out
22. Contrary ..... our expectations the central bank increased interest rates.  
a) With                      b) to                      c) at                      d) none of these

**Q #4 Give short answers of any 3 of the following.**

(15)

1. What is the difference between fact and opinion? Give examples.
2. Define irony and its type. Give suitable examples.
3. Explain Present continuous tense with suitable examples.
4. Differentiate between Present simple and future simple tenses in table form. Give examples.

**Q #5 Write a detailed note on any one personality as the pride of Pakistan.**

(10)

IBA PART-I FIRST SEMESTER EXAMINATION OF 2018 (MORNING)

FRESHMAN ENGLISH-I

(REGULAR ONLY)

INSTRUCTOR: NAZIA KOONJ

TIME ALLOWED: 2 ½ HRS

NOTE: ATTEMPT ALL QUESTIONS.

MAX. MARKS 70

04-05-2018

**Q #1 Organize an essay on any one of the following topics.**

(15)

1. *Social media effect on young people*
2. *Importance and usage of technology: uses and abuses*
3. *English as an International Language: Importance & comparison with Sindhi and Urdu*

**Q #2 Read the following passage carefully and answer the questions below. (20)**

No sooner had the first intrepid male aviators safely returned to Earth than it seemed that women, too, had been bitten by an urge to fly. From mere spectators, they became willing passengers and finally pilots in their own right, plotting their skills and daring line against the hazards of the air and the skepticism of their male counterparts. In doing so they enlarged the traditional bounds of a women's world, won for their sex a new sense of competence and achievement, and contributed handsomely to the progress of aviation. But recognition of their abilities did not come easily. "Men do not believe us capable," the famed aviator Amelia Earhart once remarked to a friend. "Because we are women, seldom are we trusted to do an efficient job." Indeed old attitudes died hard, when Charles Lindbergh visited the Soviet Union in 1938 with his wife, Anne herself a pilot and gifted proponent of aviation, he was astonished to discover both men and women flying in the Soviet Air Force. Such conventional wisdom made it difficult for women to raise money for the up-to-date equipment they needed to compete on an equal basis with men. Yet they did compete, and often they triumphed finally despite the odds. Ruth Law, whose 590-mile flight from Chicago to Hornell, New York, set a new nonstop distance record in 1916, exemplified the resourcefulness and grit demanded of any woman who wanted to fly. And when she addressed the Aero Club of America after completing her historic journey, her plainspoken words testified to a universal human motivation that was unaffected by gender. "My flight was done with no expectation of reward," she declared, "just purely for the love of accomplishment."

1. Which of the following is the best title for this passage?

- |                             |                               |
|-----------------------------|-------------------------------|
| (A) A Long Flight           | (B) Women in Aviation History |
| (C) Dangers Faced by Pilots | (D) Women Spectators          |

2. According to the passage, women pilots were successful in all of the following EXCEPT

- |                                                |                                             |
|------------------------------------------------|---------------------------------------------|
| (A) challenging the conventional role of women | (B) contributing to the science of aviation |
| (C) winning universal recognition from men     | (D) building the confidence of women        |

3. What can be inferred from the passage about the United States Air Force in 1938?

- |                                                    |                                                     |
|----------------------------------------------------|-----------------------------------------------------|
| (A) It had no women pilots.                        | (B) It gave pilots handsome salaries.               |
| (C) It had old planes that were in need of repair. | (D) It could not be trusted to do an efficient job. |

4. In their efforts to compete with men, early women pilots had difficulty in

- |                      |                    |
|----------------------|--------------------|
| (A) addressing clubs | (B) flying nonstop |
| (C) setting records  | (D) raising money  |

5. According to the passage, who said that flying was done with no expectation of reward?

- |                    |                       |
|--------------------|-----------------------|
| (A) Amelia Earhart | (B) Charles Lindbergh |
| (C) Anne Lindbergh | (D) Ruth Law          |

**Introductions to Computer Applications**

**Time: 02 Hour**

**Date: 09-05-2018 Marks 80**

---

Note: Attempt any four questions. All question carries equal Marks

- Q # 1. What do you know about computers? Briefly describe computer classification according to size, capacity and functions with appropriate examples.
- Q # 2. What is machine cycle? Explain all steps of machine cycle with diagram.
- Q # 3. Describe storage media used today's computers also Identify some magnetic and Flash-Memory-card storage devices with explaining how they used today.
- Q # 4. List various types of scanners and readers and briefly describe the purposes of scanners and readers business organization.
- Q # 5. What is operating system? Differentiate system software and application software with examples.
- Q# 6. What is network? Explain different application of Internet and Intranet and Extranet with diagram.

**The End**

Business Mathematics

Date: 05 May, 2014

Max. Marks: 30

Note: Attempt any Four questions.

- Q # 1. Vernal Equinox wishes to borrow \$10,000 for three years. A group of individuals agrees to lend him this amount if he contracts to pay them \$16,000 at the end of the three years. What is the implicit compound annual interest rate implied by this contract (to the nearest whole percent)?
- Q # 2. (a) What principal will produce \$ 6913.125 in 6.5 years at 8.25% simple interest?  
(b) A buyer purchased a gift for \$550. The profit margin of the seller was 10%. Before reaching the home buyer changed his idea and exchanged the same gift with different colour and paid an extra amount of \$50 for the exchange. Find the seller's profit.
- Q # 3. (a) Certain company announced a 12% discount on its pair of shoes. If the marked price of a pair of shoes is \$60 then what would be its sale price now?  
(b) A student got 42 marks out of 60 in Mathematics, and 62 marks out of 80 in Economics. In which subject the performance of the student is better?
- Q # 4. (a) The employees in a certain factory are divided into three wage classification. Group A is paid at the rate of Rs. 100 per day, a second group in which there are twice as many employees as in the first group, is paid at the rate of Rs. 150 per day, and a third group, in which there are half as many employees as in the other two groups, is paid Rs. 200 per day. If the total daily payroll is Rs. 10,000, how many employees are there in each group?  
(b) The management of a company manufacturing surfboards has fixed costs (zero output) of \$200 per day and total costs \$1400 per day at a daily output of twenty boards.  
(i) Assuming the total cost per day (C) is linearly related to the total output per day (X), write an equation relating output to cost.  
(ii) What are the total costs for an output of twelve boards per day?
- Q # 5. (a) Derive the quadratic formula from the standard quadratic equation.  
(b) Mr. Zee can buy a number of shares for Rs. 5250. He reserved 50 of them and so 2 shares remain for Rs. 100. If in future a profit of Rs. 5 per share on the cost price. How many shares did Mr. Zee buy?
- Q # 6. (a) Find the derivative of the following function:  
$$f(x) = \sqrt{x^2 - 10}$$
  
(b) A company's sales are known to be related to advertising expenditures by the equation  $P(x) = 150000 + 5000x - 50x^2$ , where x denotes the monthly advertising expenditures in thousands of dollars. Find the company's instantaneous rate of change in sales, if monthly advertising expenditures are \$3000.

Part-II (BA) (afternoon) - First Semester, Academic Session-2015  
Subject: Pakistan Studies (Compulsory) Course No. 303  
(Regular)

Max. Marks: 60

Time allowed: 2 hrs

2015

Attempt any THREE Questions. All Questions carry equal marks.

1. What is the role of All India Movement in the revival of the image of Muslims after the war of independence of 1857?
2. Formation of All India Muslim League and its role of creation of Pakistan?
3. What is Khilafat movement highlight the major events of the movement and critically evaluate the causes of failure of the movement?
4. It is said that "Lucknow Pact" was the only event that united both Congress and All India Muslim League at one platform. Explain briefly.
5. The Lahore Resolution was turning point in the history of Pakistan movement define the principles of the Resolution?
6. Describe in detail the Geographical Importance of Pakistan.

Good Luck
